- Q&A
- Closing Remarks

You shouldn't postpone your vaccinations.

Submit question in the Q & A feature

The technology used to develop the new COVID-19 vaccines is not new.

Submit question in the Q & A feature

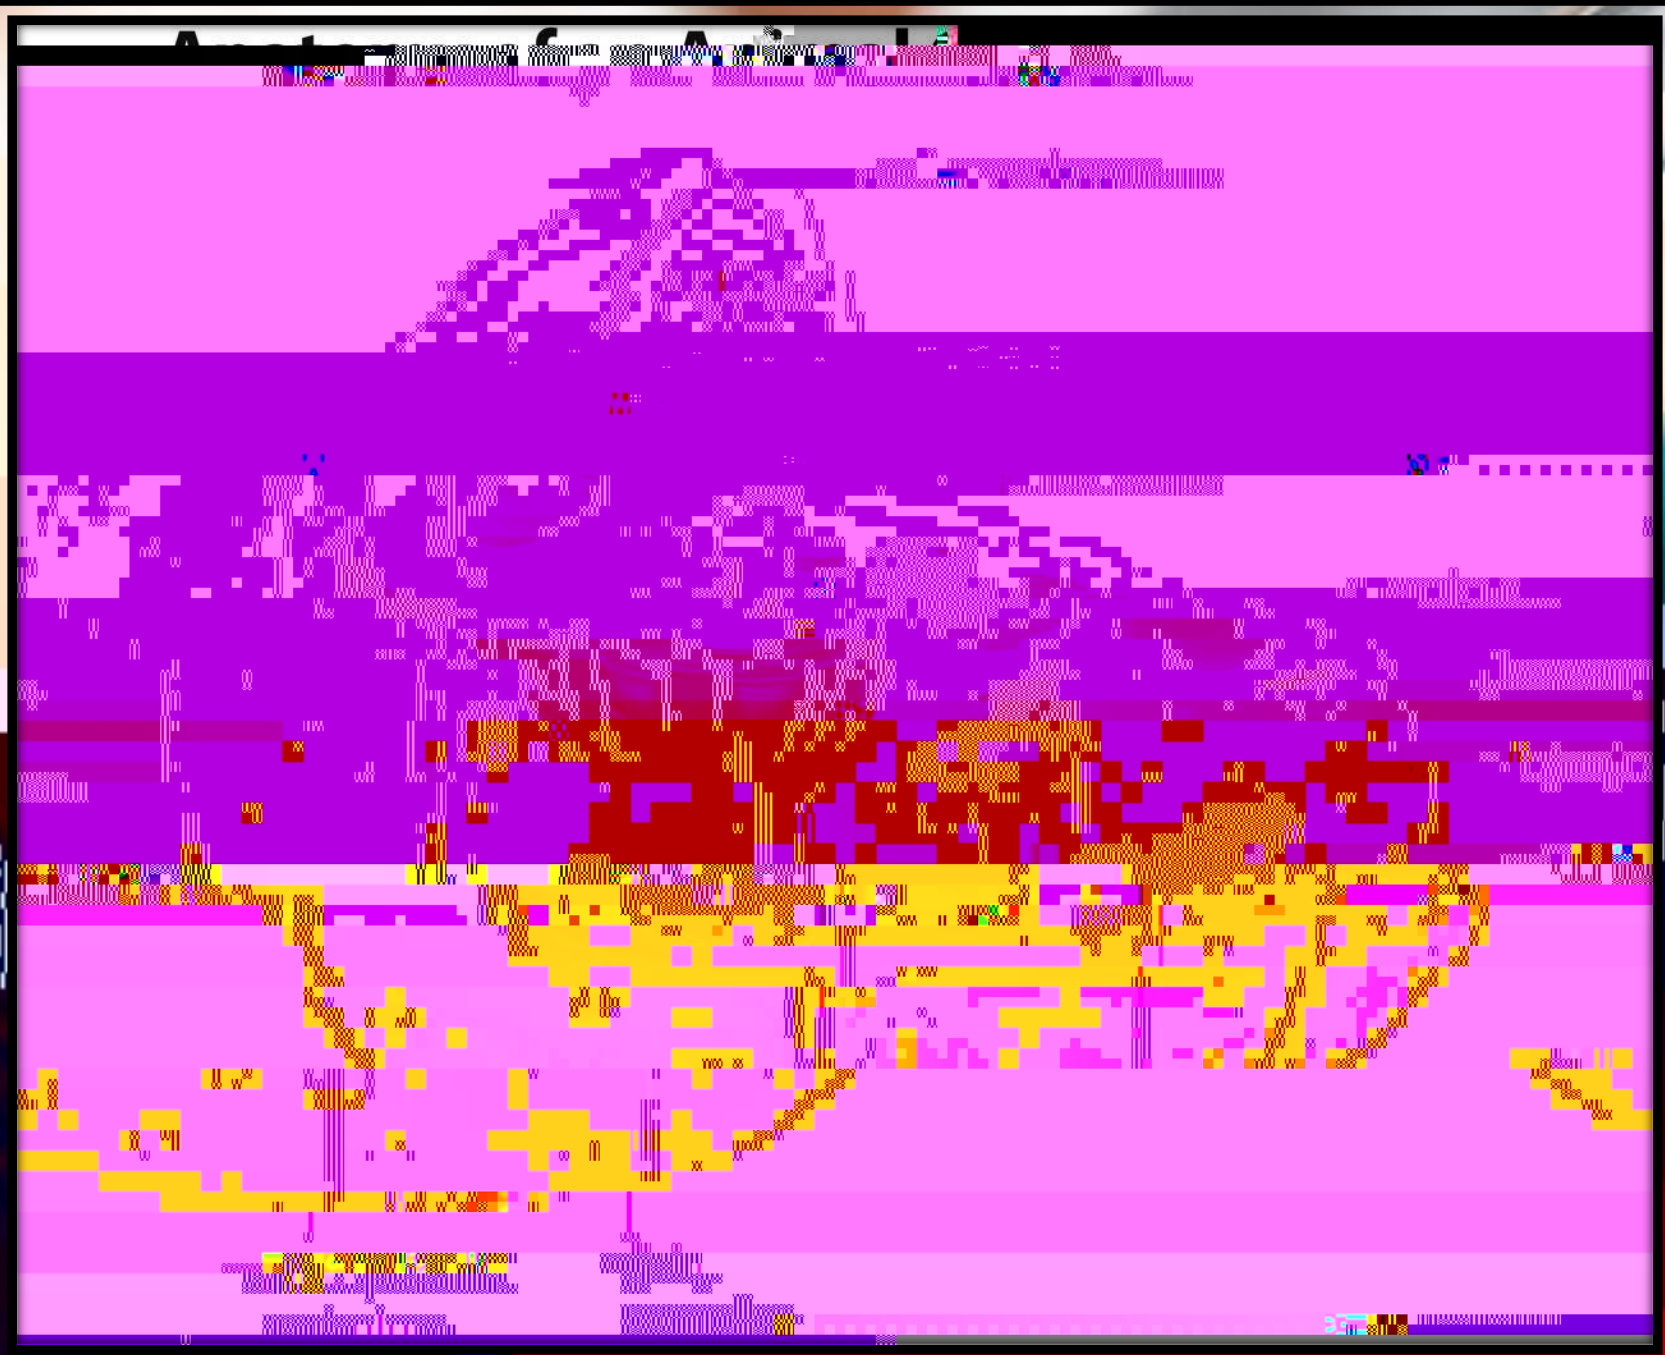

This is not possible. Messenger RNA (mRNA) vaccines work in the cell's cytoplasm and never enter the cell nucleus, where the DNA, your genetic material, lives.

Submit question in the Q & A feature

All the COVID-19 vaccines being used have gone through rigorous studies to ensure they are as safe as possible. Systems that allow CDC to watch for safety issues are in place across the entire country.

Submit question in the Q & A feature

You may have pain and swelling at the injection site and experience fever, chills, tiredness, and headache. Side effects may feel like flu and even affect your ability to do daily activities, but they should go away in a few days.

Submit question in the Q & A feature

No, the COVID-19 vaccines do not contain any aborted fetal cells. However, Pfizer and Moderna did perform confirmation tests (to ensure the vaccines work) using fetal cell lines. Fetal cell lines are not the same as fetal tissue. Fetal cell lines are cells that grow in a laboratory. They descend from cells taken from elective abortions in the 1970s and 1980s. No fetal cell lines were used to manufacture the vaccine, and they are not inside the injection you receive.

Submit question in the Q & A feature

It typically takes a few weeks for the body to build immunity (protection against the virus that causes COVID-19) after vaccination. That means it's possible a person could be infected with the virus that causes COVID-19 just before or just after vaccination and still get sick.

Submit question in the Q & A feature

Eschatology is the part of theology concerned with death, judgment, and the final destiny of the soul and of humankind. Many within the religious community believe that a global vaccination leads us one step closer to a one-world government.

Submit question in the Q & A feature

According to the bible the mark of the beast is a number. Receiving this vaccine does not equate to accepting the mark of the beast.
