two of the course, the remaining above-mentioned tools to aid students in writing their health promotion research paper are available when the course opens at the beginning of each semester. Students are also highly encouraged to utilize the SLU writing center. The health promotion research papers are due during week ten in the spring and fall semesters. During the spring and fall semesters students have additional time one week before the paper is due where they do not have any discussion board or other coursework obligations to finish perfecting their papers.

The health promotion research paper artifact was collected in the three-credit hour course titled Health Promotion (NURS 5140-20) that students participated in spring 2022 and fall 2022. NURS 5140-20 analyzes evidence-based

Data for spring 2022 semester demonstrates eighteen out of twenty-three (78%) students received a grade of B or higher and five out of twenty-three (22%) received a grade of less than a B. A complete breakdown of fall 2022 student performance is provided in Appendix H.

Data for fall 2022 semester demonstrates eleven out of seventeen (65%) students received a grade of B or higher and

Changes to the Assessment Plan

- x Student learning outcomesx Artifacts of student learningx Evaluation process
- x Evaluation tools (e.g., rubrics)
- x Data collection methods
- x Frequency of data collection

Please describe the actions you are taking as a result of these findings.

The actions that will be taken because of these findings are to examine ways to include topics more relevant to AGACNPs and

NURS 51 pt apel-Helalitha Plicoun diativitional AsRiA from stear of haster's program. Therefore format and style must be STRICTLY followed to demonstrate that the student has learned how to properly search for evidence-based research and use APA format applying rist experies to be search for evidence-based research and use APA format discussion participation, you will absolutely NEED to learn how to search and fin appropriate references using MEDLINE, CINAHL, etc. You will want to explore the research, and evidence-based work on your topic. There will be several resource provided bit at hyspalaes to help you if you do not have prior experience writing a ma The following is an overview of the directions – refer to the health promotion pap rubric for full directions/expectations:

- 1. a desepropied noiset of idear quare eligibility indicates the alle so she also bee two fithers lat three here
- Use APA format for the entire paper, reference list, and for reference citation in the text. You must cite the sources for information you put in the paper. should have a minimum of 10 relevant evidence-based research journal references (NOT counting textbooks & websites). References should have published with

## NURS 5140 -Health Promotion Research Paper Topic Directions

PaperTopic (Due Month & Date at 11:59pm)

The topic needs to focus on health promotion &/expention andNOT on treatment. This submission is to make sure you are choosing an appropriate topic related to health promotion/prevention/health education/screening. A list of topics will be posted the under the health promotion research paper topic tab within the assignments dates are on a first come first serve basis or you can select a topic not on the list that pertains to **needlotiop**. Your topic <u>MUST</u> be approved by your faculty group leader before submitting to the assigntatent You need to research the topic before sittling to your faculty group leader or make sure you can address all the requirements of the paper (review the health promotion directionis(&c(subs a-3 (b9B5))).

#### NURS 5140 - HEALTH PROMOTION PAPER TOPICS

- 1. Smoking Cessation
- 2. Physical activity
- 3. Responsible sexual behavior
- 4. Dental health
- 5. Stress management
- 6. Environmental health factors
- 7. Alcohol use
- 8. Depression/anxiety
- 9. Substance abuse
- 10. Violence prevention
- 11. Immunizations
- 12. Fall prevention
- 13. Nutrition
- 14. Obesity
- 15. Osteoporosis
- 16. Breast cancer
- 17. Cervical cancer
- 18. Colon cancer
- 19. Lung cancer
- 20. Prostate cancer
- 21. Hyperlipidemia
- 22. Metabolic syndrome
- 23. Stroke
- 24. Hypertension
- 25. Diabetes
- 26. Skin cancer
- 27. Oral cancers
- 28. Asthma /Allergies
- 29. Heart Disease
- 30. Sleep Apnea
- 31. Sleep Hygiene

\*\*Most topics will require a more narrowed focutor researching purposes (i.eobesity-prevention of childhood obesity in the school aged child.

# <u>APA Tips</u>

- x These brief tips are not meant to replace the **2020** dition APA Manual or be used as a complete guide for writing the Health Promotion paper.
- x APA updates can be found at https://owl.english.purdue.edu/owl/resource/50 (r)3269-2 (a1/)]T. APA format NOTE: this example paper is a few years old so some of the references are greater than 5 years old. Your references MUST be**5eyesars** old.
- x Avoid using direct quotes. a Paphrase all information being used & cite source.
- x Any idea used from an article, website, book, ect. MUST be cited. If it is not your idea/words, it needs to be cited. You cannot write an entire paragraph using someone else's ideas and only cite the first and last sentence of the paragraphMUST CITE EACH PARAPHRASED IDEA.
- x Margins are 1 inch all around.
- x Fonts that may be used inclu@alibri 11-point, Arial 11-point, Lucida Sans Unicode 10-point, Times New Romaft2-point, Georgial 1-point, & Computer Modern 10-point.
   When cutting and pasting web addresses or other information make sure you correct the font and size. Please use the same font throughout your paper.
- x The title page includes page num (tep right corner,) title of paper (centeres) bolded), name, name of university, course number & name, instructor name, & assignment due date.
- x All pages, including title page, need to be numbered. You shouldumober manually, but by using the inset tab in word and then page number. This will automatically number every page of your paper.
- x The introduction paragraph does not require a heading, it is assumed that the first paragraph is the introduction.he remainder of the paper requires headings and they mustbe boldedfirst letter of each wordapitalized, and centeredex(amples: Background Data, Screening, Behavior Theory, Interventions/Barriers, Conclusion)
- x The title of the paper belongs on the title page (bolded) and before the first paragraph on the second pag(eot bold)
- x Refer to the charts provided below on how to correctly cite and reference work.

#### Using the Author/Date System

| comprehendingonnative speech is familiarity with the topic.  |
|--|
| One study found that the most important element in comprehending nonative speech is familiarity with the topic |

|  | (Gass & Varonis, 1984).  |       |       |
|--|--|-------|-------|
| Multiple works (separate each work with semi colons) | Research shows that listening to a particular accent improves comprehension of accented speech in general (Gan gene4 (I)-6 | 3 EMC | /P << |
