Students from Dr. Garg's Lab presented posters at the Musculoskeletal Research Center Symposium at Washington University in St. Louis on May 15, 2024.

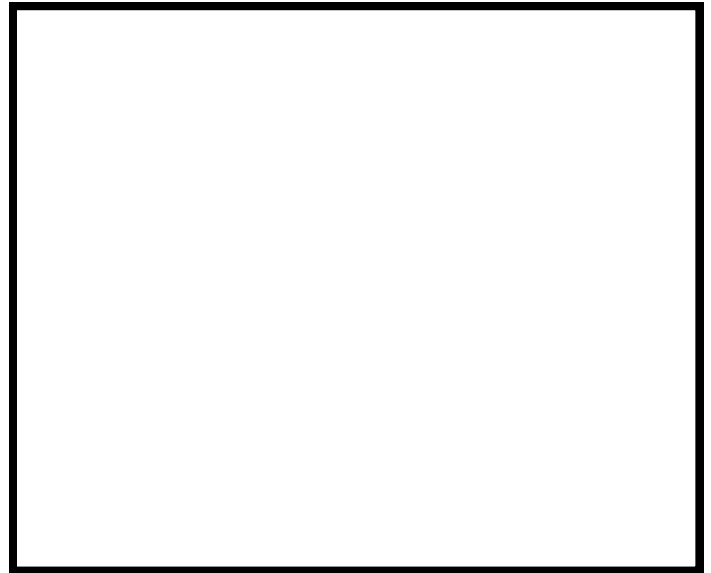

C

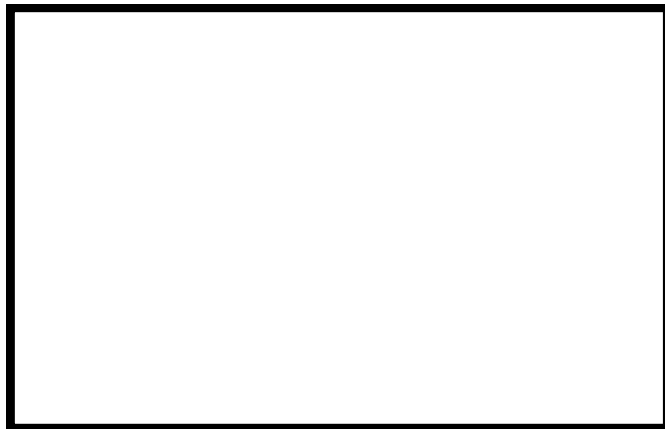

A , , **A** . ,
 ,
A Bertram K. ,
and , "Biosponge- Encased
Placental Stem Cells Enhance
Regeneration and Diminish
Fibrosis Following Volumetric
Muscle Loss."

, DiPaolo R., Kornbluth J., and
 , "Comparative Effects of
Proteins and Exosomes Derived from
CD4+ T-cell Subsets on Satellite Cell
Activity in vitro."

C . , . ,
 , "GDNF- infused Biosponges
for Muscle Reinnervation Following
Volumetric Muscle Loss."

A C , , Jelliss P., Kornbluth
J., and , "Optimizing localized
delivery of biological cargo via
gelatin nanoparticles for tissue injury
sites."
